

IMPORTANT: Read all instructions before installing fixtures. Retain for future reference.

TOOL REQUIRED

- Saw
- Flat Screwdriver
- Wire Stripper
- Measuring Tape
- Electrical Wiring (use type and gauge suitable for all applications to connect to fixtures)

SAFETY / WARNING

SAFETY: For your safety, this fixture must be wired in accordance with local electrical codes and ordinances. All work should be done by a qualified electrician.

WARNING: Make certain power is OFF from the electrical panel before starting installation or attempting any maintenance.

INSTRUCTIONS

STEP 1 -> Shut power OFF

STEP 2 -> Cut ceiling hole using the provided stencil.

STEP 3 -> With a flat screwdriver, open the junction box cover and remove the appropriate knockout(s) on the side panel.

*** STRIP THE WIRE
3/4" TO 1"**

STEP 4 -> Insert the electrical cable through the knockout.

STEP 5 -> Using the QUICK CONNECT feature, connect the green (ground) wire of the cable to the green wire in the box. Connect white (neutral) wire of the cable to the white wire of the box. Connect black wire of the cable to the black wire of the box.

STEP 6 -> Place all wiring and connections back into the box and close the cover.

 QUICK CONNECT SYSTEM

STEP 7 -> Removable cap

A) You can use the cap to Prevent insulating wool from showing or falling through the rim

With protective Cap

B) You can remove the cap to install the fixture in tight spaces that requires 1" of clearance

Without protective Cap

STEP 8 -> Join both white cables in order to affix the slim light to the junction box.

STEP 9 -> Insert junction box through the mounting hole

STEP 10 -> A) Push spring-loaded clips on the fixture upwards and insert the fixture's base into the mounting hole.

B) Release the clips and the fixture will be pulled flush to the ceiling.
